

INDEX TO VOLUME 33

Book Reviews and Obituaries are indexed under these headings in alphabetical order under the letters B and O, respectively.

Abdomen, pulmonary embolism caused by lead bullet following gunshot wound of, 63
retroperitoneal sympathicoblastoma without involvement of adrenal glands, 922
Abnormalities and Deformities: See under names of organs and regions
Abscess: See under names of organs and regions, as Brain; etc.
Actinomycosis, infection of heart with actinomyces, 161
Adipose Tissue: See Fat
Adolescence, fibrous dysplasia of bone; condition affecting 1, several or many bones, graver cases of which may present abnormal pigmentation of skin, premature sexual development, hyperthyroidism or still other extraskeletal abnormalities, 777
Adrenals, histogenesis of so-called Grawitz tumor, 879
Alcohol, antemortem and postmortem diffusion through mucosa of bladder, 939
Alcoholism: See also Liver, cirrhosis
myocardial changes resulting from alcohol poisoning, 127
Allergy: See Anaphylaxis and Allergy
Anachoresis: See Infection, focal
Anaphylaxis and Allergy, animal poisons and anaphylactic shock, 403
histamine and local anaphylaxis in rabbit, 389
histamine theory of anaphylactic shock with reference to anaphylaxis in rabbit, 387
physiologic changes of cardiac muscle, 399
smooth muscle tone under anaphylactic shock and histamine action, 394
Anderson, N. A.: Elastic tissue hyperplasia of endocardium, 533
Anderson, W. A. D.: Pathologic changes following injections of ferrihemate (hematin) in dogs, 589
Role of parasite pigment (ferrihemate acid) in production of lesions in malaria, 677
Androgens, experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on experimental atherosclerosis in rabbits, 58
Anemia, changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834
Aneurysm, chronic occlusion of portal vein; report of 2 cases, 1 case of occlusion associated with aneurysm of splenic artery and carcinoma of liver (hepatoma), 372
dissecting, of aorta, 704
syphilitic, of superior mesenteric artery, 691
Anoxemia: See Blood, oxygen
Antigens and Antibodies: See Lipoids; and under specific antigens and reactions
Antopol, W.: Pathologic aspect of nutritional deficiencies in rats; lesions produced by diets free of vitamin B₆ (pyridoxine) and response to vitamin B₆, 241
Aorta, Aneurysm: See under Aneurysm
Aortic Valve, heart in combined syphilitic aortic valvulitis and rheumatic heart disease, 37
Apparatus: See also Instruments
photomicrography with 35 mm. kodachrome, 263
simultaneous soap-wax dehydration and infiltration of human heart; method for permanent preservation, 696

Apparatus—Continued

use of serum ultrafiltrate in tissue cultures for studying deposition of fat and for propagation of viruses, 619
Appendicitis and oxyuriasis, 28
Appointments, 138, 291, 409, 731, 949
Arteries: See Arteriosclerosis; Blood pressure; Embolism; Thrombosis; Vasomotor System; etc.
Arteriosclerosis, experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on experimental atherosclerosis in rabbits, 58
experimental studies in cardiovascular pathology; methyl cellulose atheromatosis and thesaurosis, 1
occurrence of atheroma in aorta in rabbits with renal hypertension, 655
Asphyxia, changes in oxygen saturation of arterial blood incident to death from sudden cardiac failure or asphyxia; experimental investigation, 543
Atheroma: See Arteriosclerosis
Atherosclerosis: See Arteriosclerosis
Atrophy: See under names of organs and regions
Avitaminosis: See under Vitamins
Awards, 138, 291, 409, 731, 949. See also Medals; Prizes
Ayer, G. D.: Uremia following blood transfusion; nature and significance of renal changes, 513
B C G: See under Tuberculosis
Bacteria: See under Staphylococci; Viruses; etc.
Barnes, M.: Primary carcinoma in congenitally single functioning kidney, 537
Behrens, E. G.: Obturator thrombosis of right pulmonary artery and necrosis of entire lung with hilar bronchogenic carcinoma, 259
Bennett, G. A.: Osteochondritis deformans of hip (Legg-Perthes disease) and renal osteitis fibrosa cystica; report of case with anatomic studies, 866
Berg, M.: Experimental peptic ulcerations by vasomotor episodes (pitressin episodes) and autonomic disturbances, 636
Berman, L.: Observations on dry films of cultures of lymphoid tissue, 295
Beta Cells: See Pancreas
Binford, C. H.: Syphilitic aneurysm of superior mesenteric artery, 691
Bladder, antemortem and postmortem diffusion of alcohol through mucosa of, 939
Blastomycosis, heart in, 99
Blood: See also Hemoglobin and Hemoglobin Compounds; Leukocytes
coagulation; method for measuring clot retraction time, 380
Diseases: See Anemia; etc.
effect of experimental cirrhosis on intrahepatic circulation of blood in intact animal, 198
Groups: See Blood transfusion
macromolecular substances as pathogenic agents, 267
oxygen; changes in oxygen saturation of arterial blood incident to death from sudden cardiac failure or asphyxia; experimental investigation, 543
phosphatase activity in disease of liver; correlation of serum enzyme activity and hepatic histologic changes, 460
platelets; presence of histamine in inflammatory lesions, 452

Blood—Continued

- pressure, high; occurrence of atheroma in aorta in rabbits with renal hypertension, 653
- proteins; presence of leukocytosis-promoting factor in circulating blood, 193
- transfusion, uremia following; nature and significance of renal changes, 513
- use of serum ultrafiltrate in tissue cultures for studying deposition of fat and for propagation of viruses, 619
- Vessels: See Veins; etc.
- Bloom, F.: Spontaneous solitary and multiple mast cell tumors ("mastocytoma") in dogs, 661
- Blumenfeld, C. M.: Normal and abnormal mitotic activity; comparison of periodic mitotic activity in epidermis, renal cortex and submaxillary salivary gland of albino rat, 770
- Blumenthal, H. T.: Effect of weight on development of mammary carcinoma in various strains of mice, 845
- Boeck's Sarcoid: See Sarcoidosis
- Boling, L. R.: Anachoretic effect in pulpitis; histologic studies, 477
- Bones: See also under names of bones
- changes in osseous tissues of young dogs after prolonged administration of estradiol benzoate, 395

Diseases: See Osteitis

- fibrous dysplasia of; condition affecting 1. several or many bones, graver cases of which may present abnormal pigmentation of skin, premature sexual development, hyperthyroidism or still other extraskeletal abnormalities, 777
- histologic studies of tissues of rats fed diet extremely low in sodium, 504
- reaction to metastasis from carcinoma of breast and prostate, 312
- technic for sectioning soft bones and hard tissues by celloidin and paraffin methods, 86

BOOK REVIEWS:

- Anoxia: Its Effect on Body; E. J. Van Liere, 410
- Diabetes Mellitus; Z. T. Wirtschafter and M. Korenberg, 571
- Diseases of Basal Ganglia, 732
- Diseases of Blood and Atlas of Hematology, with Clinical and Hematologic Descriptions of Blood Diseases Including Section on Technic and Terminology; R. B. Kracke, 144
- Immunity Against Animal Parasites; J. T. Culbertson, 143
- March of Medicine; New York Academy of Medicine, Lectures to Laity, 1941, 572
- Natural Resistance and Clinical Medicine; D. Perla and J. Marmorston, 293
- Neural Mechanisms in Poliomyelitis; H. A. Howe and D. Bodian, 732
- 1941 Year Book of Pathology and Immunology; Pathology edited by H. T. Karsner; Immunology edited by S. B. Hooker, 572
- Rabies; L. T. Webster, 950
- Stanford University Publications, University Series, Medical Sciences; Vol. IV, No. 2. Lane Medical Lectures: Lymphatic System: Its Part in Regulating Composition and Volume of Tissue Fluid; C. E. Drinker, 733
- Surgery of Heart; E. S. J. King, 143
- Survey of Compounds Which Have Been Tested for Carcinogenic Activity; J. L. Hartwell, 570
- Books received, 294, 734
- Bosse, M. D.: Chronic occlusion of portal vein; report of 2 cases, 1 case of occlusion associated with aneurysm of splenic artery and carcinoma of liver (hepatoma), 372

Brain: See also Nervous System; etc.

- abscess; single stage method for production in cats, 472
- instrument for obtaining hypophysis and portion of brain without removing calvarium, 84
- Breast, cancer, effect of weight on development in various strains of mice, 845
- cancer; factors influencing development and time of appearance in rat in response to estrogen, 334
- cancer, production in mice by estrogens, 411
- cancer; reaction of bone to metastasis from carcinoma of breast and prostate, 312
- fibroleiomyoma of, 72
- normal and pathologic proliferation in breast with special reference to cystic disease, 573
- tumors, simpler classification of, 905
- Bright's Disease: See Nephritis
- Brody, H.: Drainage of pulmonary veins into right side of heart, 221
- Bruger, M.: Experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on experimental atherosclerosis in rabbits, 58
- Byrnes, E. W.: Factors influencing development and time of appearance of mammary cancer in rat in response to estrogen, 334

Calvarium: See Frontal Bone

Cameron, D. W.: Synovialoma, 687

Cancer: See also Tumors; etc.; and under names of organs and regions, as Breast; Esophagus; Kidneys; Liver; Spleen; etc.

cancer bibliography, 292

cancer fellowships and tumor diagnosis, 731

Carbohydrates, macromolecular substances as pathogenic agents, 267

Carcinoma: See Cancer

Cardiovascular System: See also Arteries; Heart; Vasomotor System; etc.

experimental studies in cardiovascular pathology; methyl cellulose atheromatosis and thesaurosis, 1

pathologic changes following injections of ferrihemate (hematin) in dogs, 589

Cartilage: See also Osteochondritis; etc.

studies of; new histochemical reaction with high specificity for cartilage cells, 174

studies of; quantitative study of stabilizing action of crystal violet on tissue polysaccharide compounds, 163

studies of; some effects of mediums of different pH values on composition of cartilage, 145

Ceder, E. T.: Presence of histamine in inflammatory lesions, 452

Cells: See also Tissue; etc.

alveolar cell tumor of human lung, 551

division; normal and abnormal mitotic activity; comparison of periodic mitotic activity in epidermis, renal cortex and submaxillary salivary gland of albino rat, 770

observations on dry films of cultures of lymphoid tissue, 295

spontaneous solitary and multiple mast cell tumors ("mastocytoma") in dogs, 661

studies of cartilage; new histochemical reaction with high specificity for cartilage cells, 174

Cellulose, experimental studies in cardiovascular pathology; methyl cellulose atheromatosis and thesaurosis, 1

Clisby, K. H.: Toxic effects of bitter-tasting phenylthiocarbamide, 46

Coffey, W. L., Jr.: Method for measuring clot retraction time, 380

Colloids, massive fatty infiltration in colloid goiter, 357

Communicable Diseases: See Syphilis; etc.

Copper, changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834

- Correction in transcript of article by Dr. Irving Graef entitled "Studies in Lipid Pneumonia: I. Lipid Pneumonia Due to Cod Liver Oil; II. Lipid Pneumonia Due to Liquid Petrolatum" (Arch. Path. 22:613 [Nov.] 1939), 292
- Courville, C. B.: Comparative pathology of epidemics of poliomyelitis occurring in Los Angeles County in 1934-1935 and 1939, 817
- Cranium: See also Frontal Bone; etc.
sclerotic areas in skulls affected with Paget's disease, 607
- Crigler, C.: Presence of histamine in inflammatory lesions, 452
- Crime and Criminals: See Jurisprudence, Medical
- Crystal Violet: See Stains and Staining
- Cysts: See under names of organs and regions, as Lungs; etc.
- Cytomycosis and myocarditis, 164
- Death**, changes in oxygen saturation of arterial blood incident to death from sudden cardiac failure or asphyxia; experimental investigation, 543
- Dehydration, simultaneous soap-wax dehydration and infiltration of human heart; method for permanent preservation, 696
- Dhayagude, R. G.: Massive fatty infiltration in colloid goiter, 357
- Diet and Dietetics: See also Vitamins
dietary production of hepatic cirrhosis in rabbits with analysis of factors involved, 264
- Dill, L. V.: Occurrence of atheroma in aorta in rabbits with renal hypertension, 655
- Disease, changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834
- Distinguished Service Medal, awarding of, 949
- Drake, R. L.: Retroperitoneal sympathicoblastoma without involvement of adrenal glands, 922
- Dry films, observations on dry films of cultures of lymphoid tissue, 295
- Dyes: See Stains and Staining
- Eckstein, D.: Heart in combined syphilitic aortic valvulitis and rheumatic heart disease, 37
- Edema: See under names of organs and regions
- Ehrlich, J. C.: Photomicrography with 35 mm. kodachrome, 263
- Embolism: See also Thrombosis
pulmonary, caused by lead bullet following gunshot wound of abdomen, 63
pulmonary, caused by liver tissue, 69
- Endocarditis, subacute, with systemic monilliasis, 161
- Endocardium: See Heart
- Enzymes: See also Pancreas
studies on inflammation; behavior of cellular proteinases in experimental tuberculosis of rabbits, 182
- Erythrocytes: See Anemia; Hemoglobin and Hemoglobin Compounds; etc.
- Esophagus, obstructing secondary carcinoma, 361
- Estradiol: See Estrogens
- Estrogens, changes in osseous tissues of young dogs after prolonged administration of estradiol benzoate, 365
experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on experimental atherosclerosis in rabbits, 58
factors influencing development and time of appearance of mammary cancer in rat in response to estrogen, 334
production of mammary carcinoma in mice by, 411
- Exudates and Transudates, leukocytosis-promoting factor in inflammatory exudates of man, 188
presence of leukocytosis-promoting factor in circulating blood, 193
- Eyes, histologic studies of tissues of rats fed diet extremely low in sodium, 504
- Fat**: See also Lipoids
massive fatty infiltration in colloid goiter, 357
use of serum ultrafiltrate in tissue cultures for studying deposition of fat and for propagation of viruses, 619
- Fellowships: cancer fellowships and tumor diagnosis, 731
- Ferments: See Enzymes
- Fever: See Malaria; Typhus; etc.
Rocky Mountain Spotted: See Rocky Mountain Spotted Fever
- Fibroleiomyoma of breast, 73
- Follis, R. H., Jr.: Histologic studies of tissues of rats fed diet extremely low in sodium, 504
Instrument for obtaining hypophysis and portion of brain without removing calvarium, 84
- Food: See Diet and Dietetics; Vitamins
- Foot, N. C.: Simpler classification of mammary tumors, 905
- Forensic Medicine: See Jurisprudence, Medical
- Freedman, L. J.: Obstructing secondary carcinoma of esophagus, 361
- Friedman, N. B.: Evolution of experimental radiation ulcers of intestine, 326
- Frontal Bone, instrument for obtaining hypophysis and portion of brain without removing calvarium, 84
- Fungi: See Actinomycosis; Blastomycosis; etc.
- Gabriel, F. R.: Secondary cancer of spleen, 917
- Gall, E. A.: Osteochondritis deformans of hip (Legg-Perthes disease) and renal osteitis fibrosa cystica; report of case with anatomic studies, 866
- Garthwaite, B.: Studies of cartilage; some effects of mediums of different pH values on composition of cartilage, 145
- Gas, myocarditis due to illuminating gas, 127
- Gastric Ulcer: See Peptic Ulcer
- Gauld, A. G.: Uremia following blood transfusion; nature and significance of renal changes, 513
- Geever, E. F.: Alveolar cell tumor of human lung, 551
- Geschickter, C. F.: Factors influencing development and time of appearance of mammary cancer in rat in response to estrogen, 334
- Ginsberg, R.: Dietary production of hepatic cirrhosis in rabbits with analysis of factors involved, 264
- Globin: See Hemoglobin and Hemoglobin Compounds
- Goggio, A. F.: Changes in oxygen saturation of arterial blood incident to death from sudden cardiac failure or asphyxia; experimental investigation, 543
- Goiter: See also Thyroid
massive fatty infiltration in colloid goiter, 357
- Grants, 291, 409
- Granuloma, myocarditis associated with infectious granulomas, 88
- Gross, H.: Changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834
- Gross, P.: Obstructing secondary carcinoma of esophagus, 361
Synovialoma, 687
- Gunshot Wounds: See Wounds
- Haagensen, C. D.: Production of mammary carcinoma in mice by estrogens, 411
- Hall, E. M.: Comparative pathology of epidemics of poliomyelitis occurring in Los Angeles County in 1934-1935 and 1939, 817
- Halpert, B.: Situs inversus of superior vena cava, 75

- Hartz, P. H.: Routine staining of beta cells of islets of Langerhans with Masson's tetrachrome stain, 541
- Hass, G. M.: Studies of cartilage; new histochemical reaction with high specificity for cartilage cells, 174
- Studies of cartilage; quantitative study of stabilizing action of crystal violet on tissue polysaccharide compounds, 163
- Studies of cartilage; some effects of mediums of different pH values on composition of cartilage, 145
- Heart: See also Aortic Valve; Cardiovascular System; Endocarditis; Myocarditis; etc.
- changes in oxygen saturation of arterial blood incident to death from sudden cardiac failure or asphyxia; experimental investigation, 543
- congenital idiopathic cardiac hypertrophy, 365
- drainage of pulmonary veins into right side of, 221
- elastic tissue hyperplasia of endocardium, 533
- in combined syphilitic aortic valvulitis and rheumatic heart disease, 37
- infection with actinomycetes, 101
- involvement in infection with *Trypanosoma cruzi*, 108
- lesions of Purkinje network of bovine heart as result of potassium deficiency, 467
- myocardial changes in acute nephritis, chronic nephritis and uremia, 120
- myocardial changes in thyroid diseases, 113
- myocardial changes in vitamin deficiencies, 125
- myocardial lesions in toxoplasmosis, 103
- myocardial lesions in yellow fever, 108
- physiologic changes of cardiac muscle, 399
- psittacosis and involvement of myocardium, 107
- simultaneous soap-wax dehydration and infiltration of human heart; method for permanent preservation, 696
- syphilis, 91
- Hektoen, Ludvig, awarding of Distinguished Service Medal to, 949
- Hellwig, C. A.: Retroperitoneal sympathicoblastoma without involvement of adrenal glands, 922
- Helminths: See Parasites
- Hemangioma of spleen, 487
- Hematin: See Hemoglobin and Hemoglobin Compounds
- Hematoxylin: See Stains and Staining
- Hemoglobin and Hemoglobin Compounds: See also Anemia; Blood
- new modification of Perls's reaction for hemosiderin in tissues, 937
- pathologic changes following injections of ferrihemate (hematin) in dogs, 589
- role of parasite pigment (ferrihemate acid) in production of lesions in malaria, 677
- Hemosiderin: See Hemoglobin and Hemoglobin Compounds
- Hepatitis: See under Liver
- Hepatoma, chronic occlusion of portal vein; report of 2 cases, 1 case of occlusion associated with aneurysm of splenic artery and carcinoma of liver (hepatoma), 372
- Herbut, P. A.: Secondary cancer of spleen, 917
- Highman, B.: New modification of Perls's reaction for hemosiderin in tissues, 937
- Hip, osteochondritis deformans of hip (Legg-Perthes disease) and renal osteitis fibrosa cystica; report of case with anatomic studies, 866
- Hirschboeck, J. S.: Method for measuring clot retraction time, 380
- Histamine and local anaphylaxis in rabbit, 389
- presence in inflammatory lesions, 452
- smooth muscle tone under anaphylactic shock and histamine action, 394
- theory of anaphylactic shock with reference to anaphylaxis in rabbit, 387
- Histopathologic research institute, establishment of, 949
- Hodgkin's Disease, 90
- Holly, O. M.: Changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834
- Hormones: See Androgens; Estrogens; etc.
- Hueper, W. C.: Experimental studies in cardiovascular pathology; methyl cellulose atheromatosis and thesaurosis, 1
- Macromolecular substances as pathogenic agents, 267
- Hydrogen Ion Concentration, studies of cartilage; quantitative study of stabilizing action of crystal violet on tissue polysaccharide compounds, 163
- studies of cartilage; some effects of mediums of different pH values on composition of cartilage, 145
- Hypersensitiveness: See Anaphylaxis and Allergy
- Hypertension: See Blood pressure, high
- Hyperthyroidism: See under Thyroid
- Hypertrophy: See under Heart
- Hypophysis: See Pituitary Body
- Immunity: See Anaphylaxis and Allergy; etc.
- Infantile Paralysis: See Poliomyelitis
- Infarction: See under Kidneys; etc.
- Infection: See also Viruses; Wounds; and under names of bacteria
- focal; anachoretic effect in pulpitis; histologic studies, 477
- Inflammation: See also Infection
- leukocytosis-promoting factor in inflammatory exudates of man, 188
- presence of histamine in inflammatory lesions, 452
- presence of leukocytosis-promoting factor in circulating blood, 193
- studies on; behavior of cellular proteinases in experimental tuberculosis of rabbits, 182
- Ingleby, H.: Normal and pathologic proliferation in breast with reference to cystic disease, 573
- Instruments: See also Apparatus
- for obtaining hypophysis and portion of brain without removing calvarium, 84
- Intestines, Ulcers: See also Peptic Ulcer
- ulcers; evolution of experimental radiation ulcers, 326
- Intoxication: See Alcoholism
- Iron, changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834
- Irradiation: See Radiations; Roentgen Rays; and under names of diseases and organs
- Isenhour, C. E.: Occurrence of atheroma in aorta in rabbits with renal hypertension, 655
- Islands of Langerhans: See Pancreas
- Jaffe, H. L.: Fibrous dysplasia of bone; condition affecting 1, several or many bones, graver cases of which may present abnormal pigmentation of skin, premature sexual development, hyperthyroidism or still other skeletal abnormalities, 777
- Jett-Jackson, C. E.: Plastic studies in abnormal renal architecture; investigation of circulation in infarcts of kidney, 735
- Jetter, W. W.: Antemortem and postmortem diffusion of alcohol through mucosa of bladder, 939
- Jones, G. E. S.: Mesonephroma of ovary; further studies, 18
- Jones, H. W., Jr.: Mesonephroma of ovary; further studies, 18
- Journals: See Periodicals
- Jurisprudence, Medical: See also Alcoholism; etc.
- need of forensic pathology for academic sponsorship, 382
- Kadish, M. A.: Leukocytosis-promoting factor in inflammatory exudates of man, 188
- Presence of leukocytosis-promoting factor in circulating blood, 193

- Kahn Test:** See Syphilis
- Keeton, R. W.:** Dietary production of hepatic cirrhosis in rabbits with analysis of factors involved, 204
- Keratosis,** pathologic aspect of nutritional deficiencies in rats; lesions produced by diets free of vitamin B₆ (pyridoxine) and response to vitamin B₆, 241
- Kidneys,** cancer; primary carcinoma in congenitally single functioning kidney, 537
- Diseases:** See Nephritis
- histogenesis of so-called Grawitz tumor, 879
- normal and abnormal mitotic activity; comparison of periodic mitotic activity in epidermis, renal cortex and submaxillary salivary gland of albino rat, 770
- occurrence of atheroma in aorta in rabbits with renal hypertension, 655
- osteochondritis deformans of hip (Legg-Perthes disease) and renal osteitis fibrosa cystica; report of case with anatomic studies, 866
- pathologic changes following injections of ferrihemate (hematin) in dogs, 589
- plastic studies in abnormal renal architecture; investigation of circulation in infarcts of kidney, 735
- role of parasite pigment (ferrihemate acid) in production of lesions in malaria, 677
- uremia following blood transfusion; nature and significance of renal changes, 513
- Kirtz, M. M.:** Effect of weight on development of mammary carcinoma in various strains of mice, 845
- Koln, M.:** Technic for sectioning soft bones and hard tissues by celloidin and paraffin methods, 86
- Langerhans' Islands:** See Pancreas
- Lead,** pulmonary embolism caused by lead bullet following gunshot wound of abdomen, 63
- Lebowich, R. J.:** Simultaneous soap-wax dehydration and infiltration of human heart; method for permanent preservation, 696
- Legg-Perthes Disease:** See Osteochondritis deformans
- Leukocytes,** count; leukocytosis-promoting factor in inflammatory exudates of man, 188
- count; presence of leukocytosis-promoting factor in circulating blood, 193
- Leukocytosis:** See Leukocytes, count
- Lichtenstein, L.:** Fibrous dysplasia of bone; condition affecting 1, several or many bones, graver cases of which may present abnormal pigmentation of skin, premature sexual development, hyperthyroidism or still other extraskeletal abnormalities, 777
- Lipoids:** See also Cholesterol; Fat; etc.
- fatty changes in liver from different causes; comparative studies of lipid partition, 646
- macromolecular substances as pathogenic agents, 267
- Lisa, J. K.:** Heart in combined syphilitic aortic valvulitis and rheumatic heart disease, 37
- Serum phosphatase activity in disease of liver; correlation of serum enzyme activity and hepatic histologic changes, 460
- Liver,** changes in retention of copper and iron in liver and spleen in chronic diseases accompanied by secondary anemia, 834
- chronic occlusion of portal vein; report of 2 cases, 1 case of occlusion associated with aneurysm of splenic artery and carcinoma of liver (hepatoma), 372
- cirrhosis; dietary production of hepatic cirrhosis in rabbits with analysis of factors involved, 204
- cirrhosis; effect of experimental cirrhosis on intrahepatic circulation of blood in intact animal, 198
- composition; its uniformity with respect to concentration of certain biochemical constituents in different parts of same liver, 603
- Liver—Continued**
- disease, serum phosphatase activity in; correlation of serum enzyme activity and hepatic histologic changes, 460
- fatty changes from different causes; comparative studies of lipid partition, 646
- pulmonary embolism caused by liver tissue, 69
- Loeb, L.:** Effect of weight on development of mammary carcinoma in various strains of mice, 845
- Loomis, D.:** Plastic studies in abnormal renal architecture; investigation of circulation in infarcts of kidney, 735
- Ludden, J. B.:** Experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on experimental atherosclerosis in rabbits, 58
- Lungs,** alveolar cell tumor of human lung, 551
- obturator thrombosis of right pulmonary artery and necrosis of entire lung with hilar bronchogenic carcinoma, 259
- Lymph Nodes,** observations on dry films of cultures of lymphoid tissue, 295
- Lymphangioendothelioma** of uterus, 78
- Lymphogranuloma,** Hodgkin's: See Hodgkin's Disease
- Lymphoid Tissue:** See Lymph Nodes
- McCollum, E. V.:** Histologic studies of tissues of rats fed diet extremely low in sodium, 504
- McDonald, J. R.:** Reaction of bone to metastasis from carcinoma of breast and prostate, 312
- Malaria,** role of parasite pigment (ferrihemate acid) in production of lesions in, 677
- Malformations:** See under names of organs and regions
- Mammary Gland:** See Breast
- Mann, F. C.:** Effect of experimental cirrhosis on intrahepatic circulation of blood in intact animal, 198
- Masson's Stain:** See Stains and Staining
- Mast Cells:** See Cells
- Mastocytoma,** spontaneous solitary and multiple mast cell tumors ("mastocytoma") in dogs, 661
- Medals,** 138, 409, 949. See also Awards; Prizes
- Menkin, V.:** Leukocytosis-promoting factor in inflammatory exudates of man, 188
- Presence of leukocytosis-promoting factor in circulating blood, 193
- Mesonephroma,** histogenesis of ovarian mesonephroma, 443
- of ovary; further studies, 18
- Methyl Cellulose:** See Cellulose
- Mitosis:** See Cells, division
- Monilliasis,** subacute endocarditis with systemic monilliasis, 101
- Moore, L. A.:** Lesions of Purkinje network of bovine heart as result of potassium deficiency, 467
- Moritz, A. R.:** Antemortem and postmortem diffusion of alcohol through mucosa of bladder, 939
- Need of forensic pathology for academic sponsorship, 382
- Morrison, D. B.:** Pathologic changes following injections of ferrihemate (hematin) in dogs, 589
- Role of parasite pigment (ferrihemate acid) in production of lesions in malaria, 677
- Mummification,** simultaneous soap-wax dehydration and infiltration of human heart; method for permanent preservation, 696
- Muscles,** smooth muscle tone under anaphylactic shock and histamine action, 394
- Myocarditis** and cytomycolosis, 104
- associated with infectious granulomas, 88
- due to illuminating gas, 127
- fatal, in Weil's disease, 108
- general review, with analysis of 240 cases, 88
- in helminthic diseases, 109

- Myocarditis**—Continued
 in poisoning, 127
 in protozoal diseases, 108
 in typhus, 105
 in virus disease, 105
 myocardial changes resulting from alcohol poisoning, 127
 Rocky Mountain spotted fever as cause of, 106
 serous, 128
 tuberculous, 88
Myocardium: See **Heart**
- National Foundation for Infantile Paralysis**, annual report, 291
- Neoplasms**: See **Cancer**; **Tumors**
- Nephritis**: See also **Kidneys**
 myocardial changes in acute nephritis, chronic nephritis and uremia, 120
- Nephrosis**: See under **Kidneys**; **Nephritis**
- Nerves**: See **Nervous System**
- Nervous System**: See also **Brain**; etc.
 comparative pathology of epidemics of poliomyelitis occurring in Los Angeles County in 1934-1935 and 1939, 817
 experimental peptic ulcerations by vasomotor episodes (pitressin episodes) and autonomic disturbances, 636
 retroperitoneal sympathicoblastoma without involvement of adrenal glands, 922
- Neuburger, K. T.**: Alveolar cell tumor of human lung, 551
- Neutrophils**: See **Leukocytes**
- Nodes**: See **Rheumatic Fever**
- Obituaries**:
